Parts & Accessories

Aurora Scientific Model: 550A

551B

3 meter DC power cable for powering the ground penetrating radar (GPR) system.

552A

10 meter cable for connecting the ground penetrating radar (Noggin) to the ground penetrating radar (GPR) system.

553A

10 meter cable connecting the distance wheel encoder to the ground penetrating radar (GPR) system.

550-PC

Ground penetrating radar (GPR) computer with Linux operating system and ClayMapper software pre-installed.

550-Q232

Quadrature to RS-232 converter for distance wheel encoder used with the ground penetrating radar (GPR) system.
